JURIST DECRIES BLUE LAW IDEA

Checks on Liberty Breed Popular Discontent and Bolshevism

BROOKLYN, Dec. 18.—"Blue law" were severely condemned by Judge Mitchell May in Brooklyn in discharging the November grand jury in King's county. Judge May said:

"There is an old and true adage that that government to best which governs least. There is at present with us an apparent effort to compel men to be better than they are. The value of the eighteenth amendment is still problematical.

"This is a Christian country. The first day of the week is the day designated for religious observance. It is our highest duty to respect that day, as it is also our duty to observe the Ten commandments. But it is also an equal duty for the vested authorities to know the conditions which obtain here, that we are a cosmopolitan people, that the man who works hard all week is entitled to rest, refreshment and enjoyment. We can direct that the Sabbath be restricted to religious services, but we can not by law make people religious. We can not make them respect the law, but we can create a feeling of resentment, dissatisfaction and unrest.

Breeder of Bolshevism.

"Bolshevism is merely a method of expressing dissatisfaction with the existing order of things and its supporters, just as those who in-dorse socialism are people with disordered and diseased minds, people who have suffered or feel they have suffered as a result of discrimination, oppression and injustice, dreamers who feel no hope in the existing order of things and are looking for a panacea to cure all the ills of human kind and are ready to support any order which gives promise of an early Utopia.

"Long since men recognized the advisability of keeping church and state apart. Let us go slowly before enacting antiquated, discarded and unnecessary laws that may bring down upon our heads such a feeling of discontent, dissatisfaction and unrest and which fan anew the flame of bolshevism, which so far, fortunately, is small and unimportant and has found here no grounds in which the seeds may thrive and develop.

"We never need fear bolshevism so long as we remain sane and rea-

sonable. Outdoor sports, baseball, golf, and the like, are at all times beneficial and healthful. Indulgence in such sports should be encouraged, and no one will find himself in serious difficulty by following healthful, innocent entertainment. The man who is happy and contented is in a receptive mood to accept religion.

"Men, and especially the working man, crave pleasure, enjoyment and social intercourse. Deny him the right to take his wife and kiddies to enjoy themselves on a hot summer Sunday on the beach and in the show places of Coney Island, deny him the right to enjoy picture-houses, the baseball games, the rides into the country on the trolleys and you recreate the necessity for the saloon.

"With his personal actions unrestrained, he is a contented, law-abiding and God-fearing citizen. Restrict him unreasonably and he becomes a menace which neither the law nor the authorities can control or curb. This is a great and glorious country and it has become so because of the fathers and grandfathers of the days of witchcraft and of intolerance, had developed vision. They were broad-gauged and liberal-minded and opened to the oppressed and the persecuted of all lands a refuge, a home, guaranteeing to them the right of freedom of action, to be determined only by the will of the majority. No man dare impose his will or his ideas upon any other man, no matter how good the former's intentions may be. We are a progressive people; let us not now retrograde."

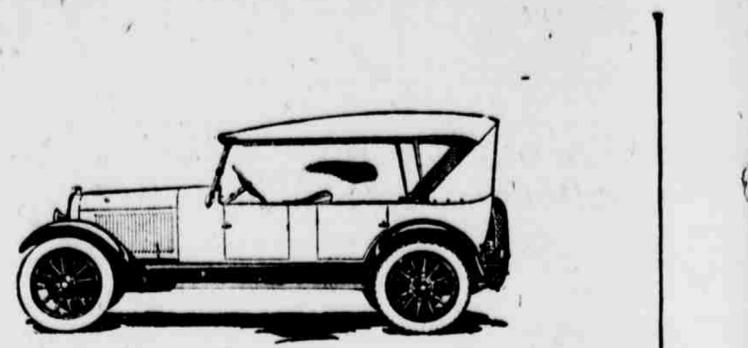

SHANGHAI BIDS FOR MEET

Woman's Club of Chinese Metropolis Want Federation in 1922.

SHANGHAI, Dec. 18.—The 400 or more American women who compose the American Woman's club of Shanghai are making every effort to bring to Shanghai the next international meeting of the General Federation of Women's Clubs in 1922.

At the recent biennial convention of the Federation of Women's clubs in Los Angeles, Iowa, the invitation to hold the next meeting in Shanghai was extended from the American Woman's club of Shanghai by its delegate, Mrs. Charles S. Lobinger, wife of Judge Lobinger of the United States court for China. On her return to Shanghai, Mrs. Lobinger reported that Chicago was the only other competitor for the 1922 meeting and said there was some likelihood that it would be held in Shanghai.

J. T. M. writes to inquire: "Where is all the daylight that was saved?" Easy enough. It was knocked out of the Democratic party November 2. —New York Morning Telegraph.

The more you compare, the more firmly you are convinced of Chalmers superiority.

The really fine mechanical performance and unusually low operating expense are of particular interest to the careful buyer.

Mr. Motorist—

Do squeaking springs hurt your pride and take all the joy out of your motoring? Or, do you save yourself this inconvenience by lubricating the springs in the old, hard way of wedging the leaves apart and inserting pure graphite?

In either case, you'll be glad to know that you can stop those squeaks—stop them easily and quickly—save the time and labor of the old way—save money by saving unnecessary wear and tear on the springs, the tires and the whole car—if you'll simply use

THOMSON'S Graphite Penetrating OIL

Say Thomson's and Look for the Arrow on the Can

With this new oil, perfect lubrication of springs is only a matter of minutes. Simply squirt a little oil along the edge on one side of each leaf of your springs. It will quickly seep through to the other side—and as it goes it deposits a film of dry graphite which lubricates perfectly and which will not collect dirt. It penetrates—finds the squeaks—and cures them. It will dissolve every particle of rust (the thicker and redder the rust, the faster it works.) A few drops of this oil will release rusty bolts, nuts, king-pins, brakes and pipe-fittings.

A pint can sells for \$1.00 under Money-Back Guarantee. Try it and convince yourself that it will do all that we claim for it.

Goodbye Punctures

The Gift Supreme for the Motorist

What could be a more practical, sensible Christmas gift for the motorist than a set of Compression Inner Tubes?

Every nail or tack removed from the tires throughout the year will be a pleasant reminder of your thoughtful gift.

It will be a merry Christmas and a happy motoring year, if he can say "Goodbye Punctures."

COMPRESSION INNER TUBE

- A pneumatic tube that closes punctures automatically—no patching or vulcanizing.
- Adds 20 to 50 per cent to the casing mileage.
- Maintains a constant air pressure, eliminating numerous trips to the filling station for air.
- More resilient than ordinary tubes—rides easier.
